

Aplomb.

Calm · pouch v1 · supplier specification

1. SKU summary

Attribute	Value
SKU	APL-CALM-30P-V1
Product name	Aplomb.Calm — ginger gummies for GLP-1 nausea
Net weight	90 g
Count	30 gummies @ ~3 g each
Serving	2 gummies (15 servings per pouch)
Shelf life target	24 months from manufacture date
Storage	Cool, dry, out of direct light

2. Pouch fabrication

Attribute	Value
Format	Stand-up flat-bottom pouch (gusseted)
Face dimensions	120 mm W × 190 mm H
Gusset depth	50 mm
Bleed	3 mm all sides (artwork canvas 126 × 196 mm)
Safe zone	6 mm inset (typesetting area 114 × 178 mm)
Substrate	PET 12 µm / Alu 8 µm / LDPE 100 µm laminate
Outer finish	Matte (no gloss varnish)
Recyclability target	CEFLEX-compatible mono-material laminate where feasible
Closure	Press-to-close zip-lock
Tamper evidence	Tear-notch, right edge, 35 mm from top
Hang hole	Optional — top-center, 6 mm Ø, 4 mm from bleed edge

3. Print specification

Attribute	Value
Process	4-color CMYK process
Finish	Matte varnish overall
Foils / spot colors	None

Bleed	3 mm on every edge
Registration tolerance	±0.3 mm
Maximum total ink coverage	280%

Color values (CMYK · sRGB reference)

Token	sRGB hex	CMYK	Where
Bone substrate	#f7f1e6	3 / 4 / 10 / 0	pouch background
Ink	#1a1512	47 / 45 / 44 / 55	body type, Supp Facts rules and type
Amber	#7a3d14	0 / 60 / 94 / 37	brand period, plumb-bob, section rules
Ink at 60%	#6e6864	28 / 27 / 26 / 33	FDA disclaimer only

sRGB hex values are reference; CMYK is authoritative. Convert using GRACoL 2013 (CRPC6) reference printing condition. Pure black (CMYK 0/0/0/100) is not used anywhere — Ink is a warm rich black.

4. Typography

Use	Font	Weight	Style
Wordmark · "Aplomb."	Cormorant Garamond	500	Italic
Section labels	Cormorant Garamond	500	Italic
Supplement Facts type	IBM Plex Sans	700 / 400	Roman
All body copy	IBM Plex Sans	400 / 500	Roman
FDA disclaimer	IBM Plex Sans	400	Italic

Minimum type sizes (hard limits): 5 pt FDA disclaimer · 6 pt all other body · 8 pt Supplement Facts column headers and primary nutrient labels.

Glyphs are outlined to paths in the SVG and PDF. There is no live text in the artwork files. Confirm in Acrobat: File → Properties → Fonts list is empty.

5. Label content (back panel, top to bottom)

- 1 Plumb-bob mark + "Aplomb." wordmark + "Ginger gummies for GLP-1 nausea" subhead
- 2 Why Calm. — one-paragraph brand line
- 3 Supplement Facts panel (FDA 21 CFR 101.36 format)
- 4 Other Ingredients line
- 5 Allergen + format declaration
- 6 Directions. and Warnings. — two adjacent columns
- 7 Storage line · Distributed-by block (Aplomb Health, Inc., Marina del Rey, CA)
- 8 FDA disclaimer (italic, 60% ink)
- 9 Lot / Best-By imprint zone, centered at bottom (70 × 14 mm, dashed outline)

6. File checklist (delivered)

File	Purpose
Aplomb_Calm_Back_Label.svg	Vector source, glyphs outlined
Aplomb_Calm_Back_Label.pdf	Print-ready PDF, embedded subset fonts
Aplomb_Calm_Back_Label.png	High-res raster preview
Aplomb_Calm_Pouch_Schematic.pdf	Dieline + bleed/safe diagram with dimensions
mockup_back_composite.jpg	Photoreal back-of-pouch reference
mockup_front_back_hero.jpg	Photoreal front+back marketing reference (not for print)

Supplier receives no PSD, AI, or Sketch source — none exist. All artwork is generated from build_back_label.py and build_schematic.py in the project repository.

7. Pre-press checklist (supplier confirms before plate)

- CMYK conversion applied with GRACoL 2013 reference profile
- All four color values match the table above within $\Delta E < 3$
- Bleed verified at 3 mm on all four edges
- Tear notch position centered on right edge, 35 mm from top
- UPC imprint zone left as dashed-outline placeholder (supplier prints actual UPC)
- Lot / Best-By imprint zone left as dashed-outline placeholder (supplier prints at fill)
- Matte varnish overall, no glossy spot UV
- No live text in PDF (Acrobat font list empty)

8. Open items — Aplomb Health to confirm before plate

- 1 Lot / Best-By print flow — supplier ink-jets variable data at fill into the dashed imprint zone at the bottom of the back panel.
- 2 Per-gummy ginger extract dose — current artwork: 1 g (1000 mg) per 2-gummy serving = 500 mg per gummy. Formulator to confirm.
- 3 UPC — intentionally omitted. The pouch is DTC-only (sold direct through getaplomb.com). No retail UPC required. Add later if going wholesale.
- 4 Country-of-origin marking — current label does not include 'Made in' text. If the contract manufacturer is outside the US, CBP marking rules require it; confirm CM location before plate.

9. Aplomb Health — point of contact

Brand owner: Aplomb Health, Inc. (operating brand name APLOMB.)
